Task 7: Identify and Remove Suspicious Browser Extensions
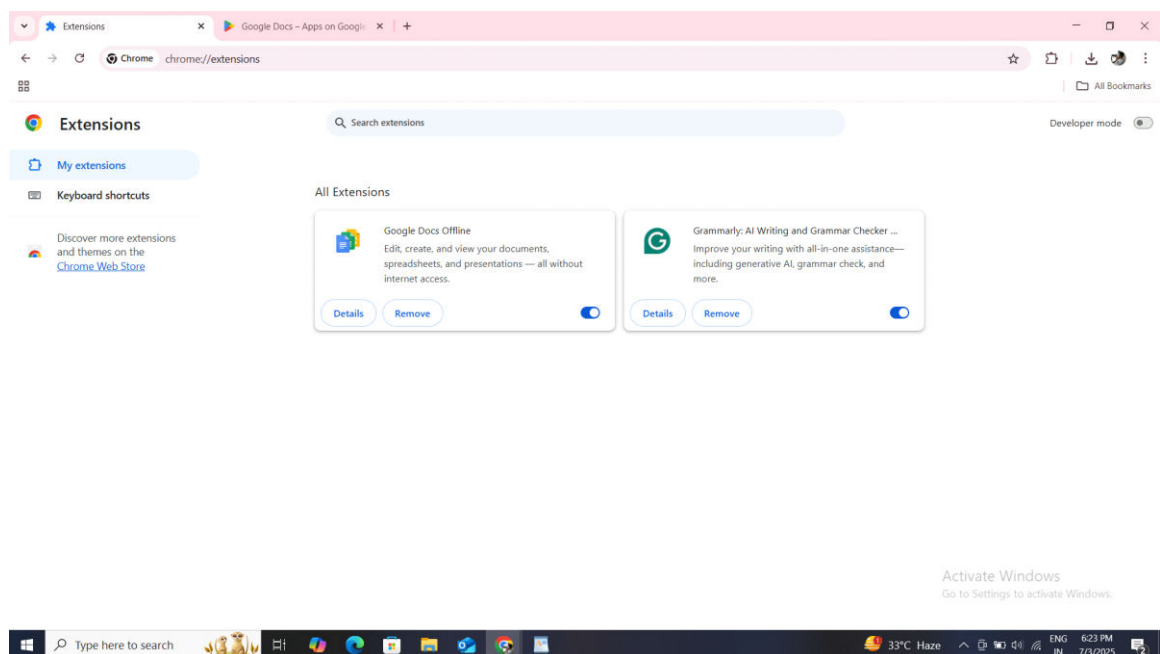

Objective:

Learn to spot and remove potentially harmful browser extensions.

Browser Used:
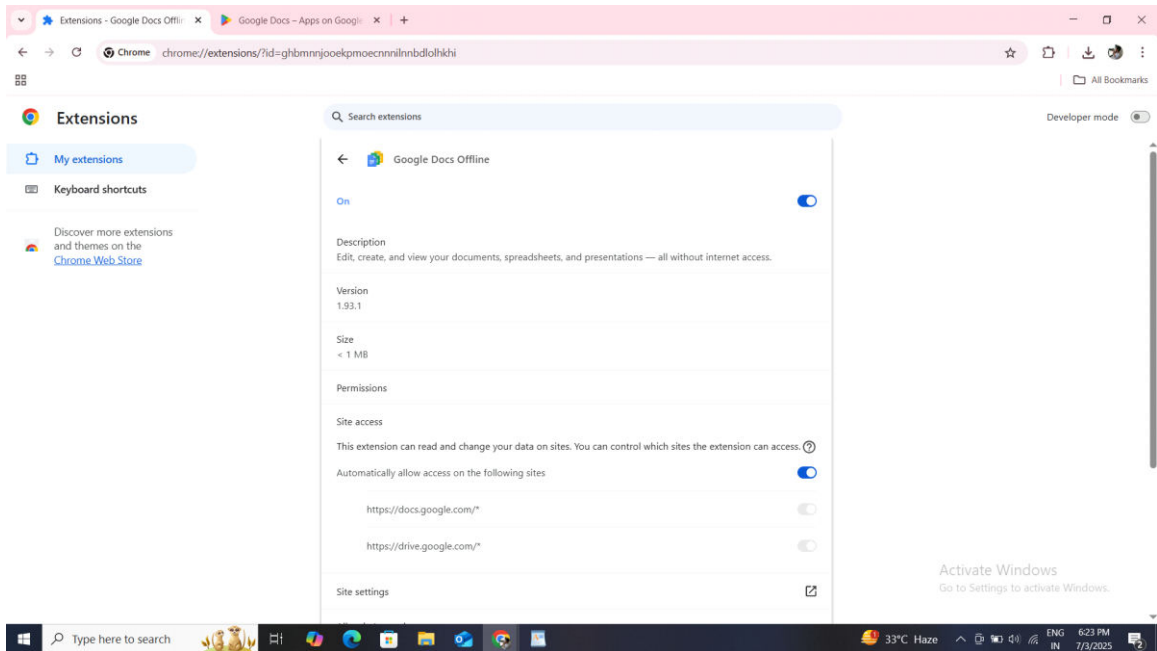

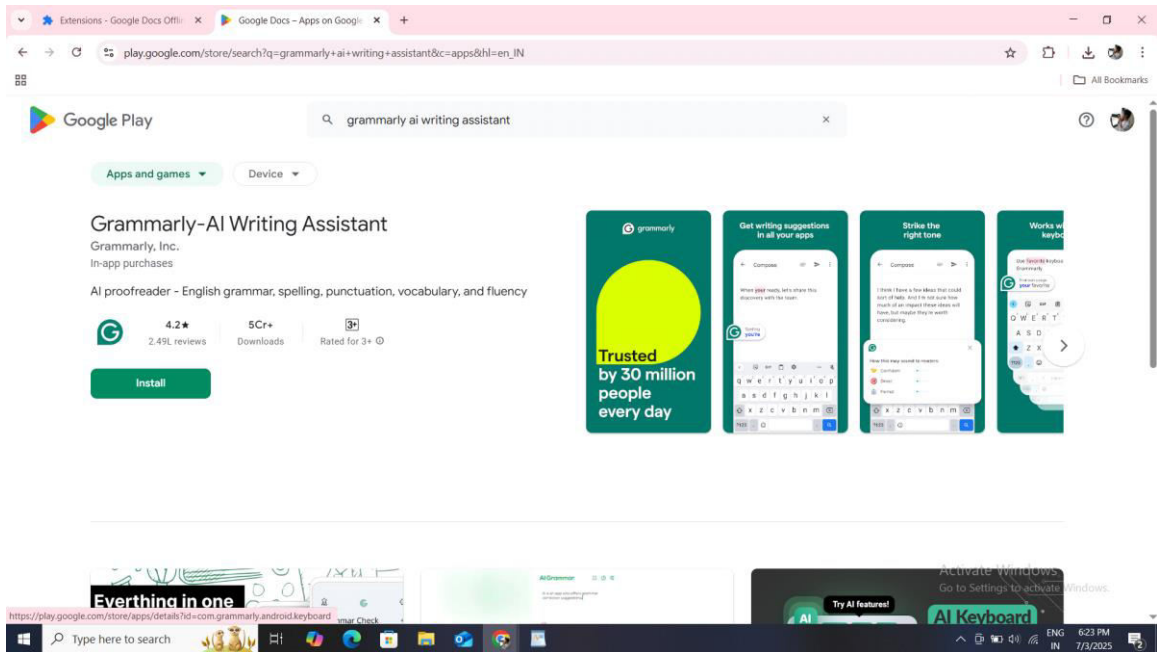

Google Chrome

Steps Taken:

1. Opened Chrome extension manager via chrome://extensions.

2. Reviewed all installed extensions:
   Grammarly
   Google Docs Offline

3. Clicked Details to review each extension's permissions.

4. Verified that both extensions have excellent reviews and are from trusted sources.

5. No suspicious or unused extensions were found.

6. Restarted the browser and confirmed smooth performance.

7. Learned how malicious extensions can:
Track Browsing data
Redirect traffic
Steal personal information
